- **ClarisTalk AI podcast with Cris Ippolite**

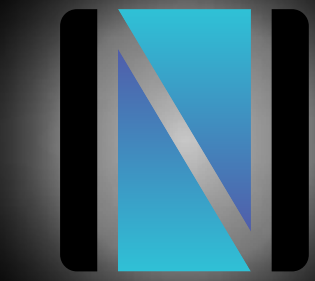

Offerings

- Free training series
- Two hour classes for \$99
- Champion Class coming January 7th
- Mentoring & Coaching
- matt@navarre.training

Agenda

- A few more slides
- 45 minute live demo / Q&A

Design Pattern

- *Combination of different methods to solve a single problem*
 - Layout: Card window with master/detail portal
 - Script A: Popup a Card
 - Script B: Search
 - Script C: Select an Item

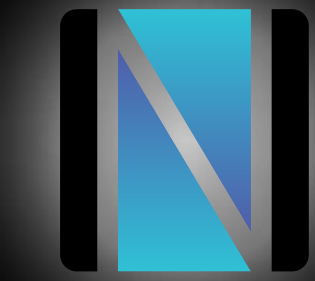

Card Window

- Modal
 - You have to do something. You can't click outside the window
- Visual focus: Dims the background
- Standardized in Mobile OS

Part the first

- Connect Company to Person, where the person is a sales rep
- Show only the Person records with the IsSalesRep flag on

Part the second

- Connect Company to Person with a join table
- A given person can be connected to multiple companies
- This is brutal do with relational value lists
- Bonus: Easy way to make a new person record

It's demo time
