Offerings

- Free training series
- Two hour classes for \$149
- Next week Oct 8th :: **Interactive fmSR**
- Champion Class coming January 7th
- Mentoring & Coaching

Agenda

- A few more slides
- 45 minute live demo / Q&A

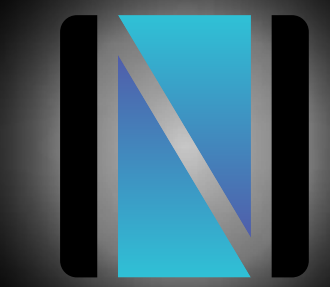

QuickFind

- Searches on defined fields on current layout
- Changes found set
- May not end up on desired record
- Can join fields (which is really cool)
- Configure via script or defining fields on layouts

fmSearchResults

- Single field search (like QuickFind)
- Searches across multiple tables
- Shows results on one page
- Configuration is both simple and powerful
- Free
- Limited free support

Principles

- Searches on indexed fields in local table is FAST
- Repeat a lot of fast searches
- Modular design. Configure:
 - by UI: Name tables, define counts, etc.
 - by layout: One config layout per Table
 - by Script: Control target layouts after search
